As our name suggests, Range and Civil Construction, LLC (RACC) was created to provide a team of personnel to construct and upgrade Military Training Ranges in the United States. With over 290 years of construction experience, our customers can count on RACC to provide performance based services to successfully execute all construction projects. RACC's Management Team has over 90 years of combined specialized experience building Military Training Ranges and Support Facilities across the Nation. We use a partnered approach to construction services incorporating current design criteria with the latest construction methodology to provide a turnkey solution from concept to completion.

Types of Ranges Completed by our Team:

- > DMPTR
- > LFV
- > ARF
- > MGR
- > DMPC
- > UAC
- > MPMGR
- > AGR
- > IPBAC
- > CP/MPQC
- > KDR
- > MPTR
- > DMPBAC
- > ISBC

Specialized Experience Building Military Training Ranges

See What Our Clients Are Saying

“Notable was RACC’s diplomatic team-focus, working closely and cooperatively with nearby building contractors to ensure a coordinated outcome on a very congested site.”

“Outstanding internal resource management. Their site trailer looked like a command center.”

“The positive attitude and responsiveness of the RACC team was role model for other nearby contractors.”
